

# THE ROSE FOUNDATION

## HAPPY HOLIDAYS

As the year comes to an end, we reflect on all of the events that have made 2019 so memorable. For the Caul Family, we have had an exceptional year! We had the opportunity to be together on Utah Beach for Katie's 25th birthday celebration and the 75th anniversary of D-Day! Katie's grandpa missed his 50th D-Day anniversary in France because he chose to be in St. Louis for the Katie's birth! Then the Caul's celebrated Katie's & Tyler's wedding in October! Jeff & I feel so blessed to welcome Tyler and his family into our growing family. Then the excitement of the FDA approved Trikafta a week later came as the last best wedding present of all!

These are just three of the most memorable moments of 2019 for us. There are many more to be sure.

A dear friend of mine just became a grandma a few days ago. Her son said to her something like, "Mom, I am so in love. Will it always be this way?" She, with all of her wisdom, said, "Yes. There will be challenges, but that LOVE will always be there and only grow deeper!"

As we all reflect on our past year, my wish for us all is to **CHERISH** the loved ones in our lives, keep the **FAITH** and **BELIEVE** in miracles and always, always have **HOPE** for the future!

I have saved the best for last: I am so grateful for all of **YOU** who are faithful followers and supporters of The Rose Foundation, Run for Roses and a Cure for Cystic Fibrosis! Stay tuned for all of the events in 2020 and our combined efforts to forge that Path to a Cure!

Blessings,

The Caul Family and The Rose Foundation Board

### Important Note on Attendance at Events

To reduce the risk of getting and spreading germs at CF Foundation-sponsored events, we ask that everyone follow basic best practices by regularly cleaning your hands with soap and water or with an alcohol-based hand gel, covering your cough or sneeze with a tissue or your inner elbow and maintaining a safe 6-foot distance from anyone with a cold or infection. Medical evidence shows that germs may spread among people with CF through direct and indirect contact as well as through droplets that travel short distances when a person coughs or sneezes. These germs can lead to worsening symptoms and speed decline in lung function. To further help reduce the risk of cross-infection, the Foundation's attendance policy recommends inviting only one person with CF to attend the indoor portion of a Foundation-sponsored event at a specific time. For the outdoor portion, the Foundation recommends that all people with CF maintain a safe 6-foot distance from each other at all times.
