

# THE ROSE FOUNDATION

## Happy New Year!

We hope the start of your new year has gone well with snow ball fights, sledding and hot chocolate and marshmallows! Well, maybe just hot chocolate and baileys for some of you!

Preparation is well underway for several events this year, especially for our biggest event of the year: *Run for Roses Trivia Night / Silent Auction!* Get your tables of 8 together NOW! We need YOU to make this the best event ever to KNOW CF out of here!

We had an amazing year last year, but are so pumped up for 2019, the year which promises to bring a new medication for so many more CFers to make breathing easier!

So take a deep breath and here we go!

**We will not stop until CF stands for Cure Found.**

Every dollar raised goes to our Gateway Chapter. This is what we can all be thankful for: From the Gateway Chapter: In 2018, the Gateway Chapter achieved over 3% growth in fundraising over prior year! Wahoo! We innovated by fully launching volunteer engagement programs like CF Foundation Cares and Tomorrow's Leaders. We even celebrated positive late stage study results for the next-generation triple-combination modulator!

While we have a lot to look back and smile about in 2018, and a lot to look forward to in 2019, let us not forget that we have a lot to reflect on as well. Each year, some of our CF Fighters lose their battle to this disease, serving as harsh reminders that our work is not done yet and that we can not stop until there is a cure.

On behalf of the Gateway Chapter staff, thank you for all that you do everyday and cheers to 2019! We can't wait to see what next year has in store for us all!

---

### **Important Note on Attendance at Events**

To reduce the risk of getting and spreading germs at CF Foundation-sponsored events, we ask that everyone follow basic best practices by regularly cleaning your hands with soap and water or with an alcohol-based hand gel, covering your cough or sneeze with a tissue or your inner elbow and maintaining a safe 6-foot distance from anyone with a cold or infection. Medical evidence shows that germs may spread among people with CF through direct and indirect contact as well as through droplets that travel short distances when a person coughs or sneezes. These germs can lead to worsening symptoms and speed decline in lung function. To further help reduce the risk of cross-infection, the Foundation's attendance policy recommends inviting only one person with CF to attend the indoor portion of a Foundation-sponsored event at a specific time. For the outdoor portion, the Foundation recommends that all people with CF maintain a safe 6-foot distance from each other at all times.
