

Dear Friends,

All of us at The Rose Foundation wish each of you a blessed and happy Thanksgiving!

Speaking for the Caul's, we have so much for which to be thankful! Never shying away from challenges, Katie started the year by pushing through all the bumps in the CF road and completing another marathon in Disney World! Managing all of her treatments and medication issues, she finished a year of her Masters in Social Work, became engaged to Tyler and will soon be the mother of two adorable little dachshunds! The Caul's welcomed another wee one to the clan and look forward to all that 2019 holds in store for them! Second to Katie's and Tyler's wedding, will be Katie's 25th birthday celebration! Katie was born on the 50th anniversary of D-day; a day that her grandpa was to be on Utah Beach to commemorate his service. Choosing to be at Katie's birth, he missed being honored in France. His strength and determination and willingness to accept any challenge were certainly instilled in Katie. It will be a privilege for the Caul's to celebrate next year and honor James 'Wally' Doherty on the 75th anniversary of D-day!

As we come to the end of 2018, we are thankful for each and every one of you for standing with us and so many other families living with CF. Our CF community is strong because of you. Together we have helped to advance research and treatments and services for those with CF.

Just last month the [North American Cystic Fibrosis Conference \(NACFC\)](#), held in Denver, brought together 4,600 of the best minds in the CF scientific community from around the world to discuss the progress in research and treatment of CF. "And, clinical trial results reveal that there is a very real chance that by the end of 2019, 90 percent or more of those with CF will be helped by triple combination therapies, which combine tezacaftor, ivacaftor, and a next-generation modulator. " Scientists and physicians and other professionals tackled other issues such as improved treatments, airway clearance, infections, care teams, etc.

Yes, we are thankful. And, yes we will not stop until CF stands for Cure Found.

Mark your calendars for Tuesday, November 27th!
