

THE ROSE FOUNDATION

HAPPY NEW YEAR!

In January 2018, Katie and two of her special college friends supported each other throughout their training and the 26.2 miles of the Disney Full Marathon to get to the FINISH LINE! I am constantly reminded by this photo of the importance of SUPPORT in attacking and completing any challenge we choose to face.

All of you are so important in filling this role for each and every CF person. Today, Katie and so many others are able to discontinue several of their daily meds because of one amazing drug, Trikafta, which was approved by the FDA in October 2019! This is HUGE progress. And you are part of helping all those living with CF live a healthier life through the medical breakthroughs that are the product of each dollar raised. The Cystic Fibrosis Foundation is putting more funds each year into not only new services, treatments and medications, but also into research in gene therapy and finally a cure for CF!!!

Many of you have already reached out to us as sponsors, donors and volunteers for our biggest fundraiser of the year: Run for Roses Trivia Night / Silent Auction on April 22. If you are able to donate any raffle or auction items,

WE Won't STOP 'TIL IT'S DONE!

ADVOCACY FOR CF

Beginning in January, following the 2022 Midterm elections, our advocacy journey with the cystic fibrosis community continues.

The CF community is small but powerful. Volunteer advocates drive our legislative and regulatory agenda forward at every level of government. It only takes seconds to respond to a call for action!

PLEASE join NOW. Text "FIGHTCF" to 96387 to join a list of volunteer advocates.

Thank you for taking the first step. We need you!

Help Fight Superbugs by Passing the PASTEUR Act Now

"The CF Foundation is advocating for the PASTEUR Act, a bipartisan piece of legislation that would help to build a sustainable pipeline for antibiotic development. [Now is the time to pressure Congress to act.](#) Urge your member(s) of Congress to pass the PASTEUR Act without delay."

Tell Your Members of Congress: Act Now on PASTEUR

"The *Pioneering Antimicrobial Subscriptions to End Upsurging Resistance* (PASTEUR) Act is picking up momentum in Congress. Since its introduction last summer, this bipartisan, bicameral bill has gained dozens of Congressional cosponsors and ignited conversations about the importance of addressing antimicrobial resistance.

It's time for Congress to turn interest into action.

Call on your members of Congress today to urge them to pass the PASTEUR Act to jump-start the development of desperately needed new antibiotics for people with cystic fibrosis and all Americans affected by antimicrobial resistance."
