**HAPPY ST. PATRICK'S DAY!**

We count ourselves LUCKY and blessed to have you all on our team fighting for a cure. From Colleen's initial *Run for Roses* in 2011, the support you have shown has been endless. The expenses of her 1,000 mile run were 100% covered by countless donations of lodging at hotels, food gift cards, gas for the RV, as well as the RV itself, allowing every dollar donated to go towards a cure! Throughout all the years 100% of your donations have gone directly to the CFF for new services, medications, treatments and research for a cure for CF. All of the costs of our events have been sponsored or donated! Thousands of children and young adults are living a healthier life because of you and your dollars!

treatment. Although the development of Trikafta has targeted the underlying cause of CF for many gene mutations, it is still not a cure.

So, we continue... 'til CF stands for Cure Found!

JOIN us April 20! It will be a blowout of wonderful prizes, baskets and raffles! Even though this is the last event sponsored by The Rose Foundation, *Team Run for Roses* will continue to be a part of the CFF Gateway Chapter Great Strides Program and will continue accepting donations through The Rose Foundation's 501(c)(3) and the funds will go directly to the CFF.

Please remember us if your business has a matching dollars program and/or a charitable fund. If you are able to nominate Team Run for Roses for a donation through your business, we appreciate it.

PLEASE continue spreading awareness, share this newsletter and SEND in your RSVP to JAMIE via text or call to 314-537-7695 OR Reply to this email!

\*\*\* Registration Fees and Donations may be made via

## ***BILL SB844***

***Advocate for SB 844 - legislation to ensure all copays count!***

***ADVOCACY is still needed! This bill passed out of General Laws; however, it still needs to be signed by the Governor. It may still go to the floor or be referred to another committee and then would need to be signed by the Governor.***

***Unfortunately, an increasing number of health insurers have implemented copay accumulator adjustment programs that ban copay assistance from counting towards patients' deductibles and out-of-pocket maximums. The insurer continues to collect the copay assistance, but once it runs out, patients are still required to pay the full deductible. 80% of Missouri marketplace plans include copay accumulator adjustment language. When copay assistance doesn't count, many patients cannot afford their treatments and stop taking them or reduce dosage. This often leads to unintended consequences such as increased emergency visits, hospital stays and missed days from work/school that harm patients and increase overall healthcare costs.***

***House Bill 1628/ Senate Bill 844 will help patients access critical treatment by ensuring all payments -- made by the patient or on behalf of the patient -- count towards the deductible and out-of-pocket costs.***
